AI & Statistics 2012

Fifteenth International Conference on Artificial Intelligence and statistics

La Palma, Canary Islands

April 21 - 23, 2012

http://www.aistats.org/

AISTATS

Invited Speakers

Sir David Cox (*Nuffield College, Oxford*)
   Some Principles Underlying Applied Statistics

Rien van de Weygaert (*Kapteyn Institute, University of Groningen*)
   Alpha, Betti and the Megaparsec Universe: Topology of the Cosmic Web

Gábor Lugosi (*ICREA and Pompeu Fabra University, Barcelona*)
   Detection of correlations in high dimension

Organizing Committee

General Chair: Bernhard Schölkopf (*Max Planck Institute, Tübingen*)
Program Chairs: Mark Girolami (*University College London*)
                Neil Lawrence (*University of Sheffield*)
Local Arrangements Chair: Fernando Pérez Cruz (*University Carlos III, Madrid, Spain*)
Fundraising Chair: Suvrit Sra (*Max Planck Institute, Tübingen*)
Publicity Chair: Kun Zhang (*Max Planck Institute, Tübingen*)
Publications Chair: Nicolò Fusi (*University of Sheffield*)

Senior Program Committee

Ryan P. Adams (*Harvard University*), Edo Airoldi (*Harvard University*), Peter Auer (*University of Leoben*), Yoshua Bengio (*Université de Montréal*), Matthew Blaschko (*University of Oxford*), David Blei (*Princeton University*), Guillaume Bouchard (*Xerox Research Centre Europe*), Nicolas Chopin (*CREST*), Koby Crammer (*Technion University*), Arnaud Doucet (*University of Oxford*), Nial Friel (*University College, Dublin*), Matthias Hein (*Saarland University*), Katherine Heller (*MIT*), Dirk Husmeier (*Biomathematics and Statistics Scotland*), Sayan Mukherjee (*Duke University*), Brendan Murphy (*University College, Dublin*), Guillaume Obozinski (*INRIA LIENS, Paris*), Jan Peters (*Technische Universität Darmstadt*), Massimiliano Pontil (*University College, London*), Christian Robert (*Université de Paris, Dauphine*), Dan Roy (*University of Cambridge*), Ricardo Silva (*University College, London*), Oliver Stegle (*Max Planck Institute, Tübingen*), Charles Sutton (*University of Edinburgh*), Bill Triggs (*CNRS*), Aki Vehtari (*Aalto University*), Jean-Phillipe Vert (*Mines ParisTech*), Hao Helen Zhang (*North Carolina State University*)
